## **What is Address Finder?**

Ensuring that you have correct address information for customers and other contacts is important.

Address Finder is simple but powerful Contact Management Software allowing you to find the exact address information you need, with just a few clicks. Simply enter a postcode (and optional house name/number) to find the address you need.

One click and the information is instantly added to your Visualfiles Case Management system.

Installation takes minutes and as we don't limit the number of searches or charge per search, this gives you complete flexibility.

Simple pricing and powerful software.

## **Benefits**

- ✓ Can be used on any screen within Visualfiles as required
- ✓ No limit on the number of searches
- ✓ Simple pricing
- ✓ Accurate address information ensuring your data is always correct
